

## DIY Hot Cocoa Mix in a Jar!

**How you do it:** It's pretty simple. Buy your favorite hot cocoa mix, mini marshmallows, mini chocolate chips, and peppermints and layer them all in a mason jar. I didn't measure anything out, except for about a cup of hot cocoa mix in each. This will make about 8 servings or so of hot cocoa. Then decorate it with things you have at home...ribbon, tulle, hemp string, extra candy canes, ect. Also I made a tag for the top of the jar saying, "Hot Cocoa Mix! Add 2 tbls with water ☺"

This is a great gift for a co-worker, neighbor, or a grab gift that looks like you put a lot of time and creativity into. Enjoy!
