

## **Section Control**

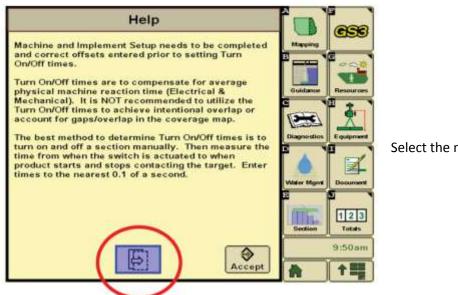

1. Select "Menu," then "Greenstar."

2. Select the "Section" soft key, then the "Turn On/Off Settings." This will access the Section control settings.

On this page you can change the Section control timing. We do have a lot of questions on which way we need to move the numbers. In this case select the "?" button. This will bring up explanations of the timing.

Select the next page icon.

Help		T TA	
Symptom:	Solution:	Magging	GSB
Product Application starts too soon	Decrease Turn on time		
Product Application starts too late	Increase Turn on time	Guidance G	Resources
Product Application stops too soon	Decrease Turn off time	Diagnordios	Equipment
Product Application stops too late	Increase Turn off time	Villator Migaret	Document
